# New Products

This edition is supplementary to "THE PRODUCT COLLECTION" in which you will find the full company profile and our manufacturing stories.

This edition features over 100 new models launching early in 2023!

We have developed these during 2022 in response to strong demand for a coordinated selection and complete solutions across architectural bathrooms and kitchens.

You will notice a **launch date** next to each product code to which the finish lead time is to be added. Orders may be placed at any time.

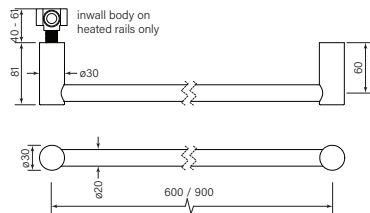

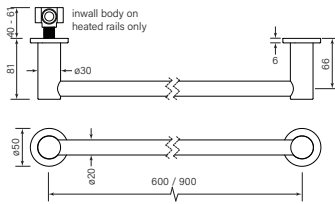

These products are **Australian Made** and engineered to the highest standard. You will find the same level of detail, functionality and build quality that you have come to expect from Faucet Strommen.

These new products are robust and built to last. They are all covered by our exceptional **40 year warranty\***
